

aquasoftzoneTM

ultimate refreshing experience

100% Natural

Water Drop is a Magic Drop
Water Conditioner
for
Commercial & Industrial

www.aquasoftzone.com

- Eco-Friendly
- Uses No Chemicals
- Maintenance Free
- 5 Years Ltd. Warranty

A new breakthrough in industrial water conditioning has arrived. The maintenance-free **Aquasoftzone Water Conditioners** installed in-line on the main line or secondary water delivery line from your industrial plant, industrial facility, water supply or industrial water system can deliver clean and chemical free conditioned water to any part of a physical plant, or industrial operations.

- Reduction of downtime resulting in decreased maintenance cost and production losses.
- No more heavy machinery is needed to remove previously built-up hard water scale.
- Elimination of chemicals used to fight the already built-up scale.
- With the reduction of downtime, elimination of heavy machinery and elimination of chemicals, the system will be much more efficient and runs for a longer period of time.
- Water storing pipes and nozzles will be scale-free, That leads to decrease in pump energy usage.
- Boilers & Compressors run more efficiently with fewer restrictions due to no scaling.
- It constantly prevents the deposition of scale, Thereby saving valuable energy cost.
- Prevents and eliminates hard water scale and corrosion on all water-related equipment.
- Reduces water heating costs and improves energy management.
- The decrease in Pumping time leads to less energy use.
- Reducing of chemical usage extends equipment life.
- Improve thermal efficiency of equipment
- No more harm to Environment.

Boilers, Chillers, Cooling towers, Heat Exchangers, Sterilizers, Filtration Systems, Ice Machines, Pools and Spas, Laundry Centers, Car wash Centers, And all Other Water Related Equipment.
